EXPERIENCE

Director of the B.A. Program in Economics, Tecnológico de Monterrey, CCM 2023–present

Director of the undergraduate Economics program and Coordinator of the Applied Economics and Data Science Concentration. Designer of courses for the new curriculum in Mathematics, Social Project Evaluation, Causal Inference, and Econometrics. Co-coordinator of the Junior Research Seminar, a student research ecosystem. Achieved double-digit year-over-year growth in new student enrollment and consistently high ratings in graduating-student exit evaluations. Recipient of multiple distinctions for teaching performance and excellence in program leadership.

Economic Consultant 2023–present

Economic consulting on transportation and regional development, including demand studies, socio-demographic and geographic profiling, and passenger-market analysis for infrastructure and mobility projects.

Junior Consultant, Consultores Internacionales, S.C. 2022

Developed economic, sectoral, and strategic analyses for public and private clients, including competitiveness studies, macroeconomic forecasting, budgeting, and the preparation of reports for decision-makers and media outlets.

Advisor, National Conference of Governors (CONAGO) 2017–2020

Coordinated technical work for several intergovernmental commissions, organized high-level meetings, prepared policy and statistical documents, managed strategic databases, and represented CONAGO in interinstitutional working groups. Progressed from Deputy Advisor to Senior Advisor.
